How you would like your response to be handled

To help make this a transparent process we intend to publish on our website the responses we receive, as we receive them. Please let us know how you would like us to handle your response. If you are responding as an individual, we will not publish your contact details.

Are you happy for your response to be published on our website?

Yes

If you are responding as an individual ...

□□□

Please tell us how you would like your response to be published.

Pick 1

Publish my full response, including my name

Please publish my response, but not my name

1. Is there anything not covered by the proposed indicators? (if yes, please explain)

No

2. Are there any indicators that you feel are not appropriate and, if so, why?

No

3. Is there any information we ask for that you feel does not need to be included or that we have been missed?

No

4: Would you like to make any other comments or suggestions about our proposed indicators?

Feedback gathered from a variety of team members identify the following:

1. We need to consider how the indicators can be tied in with the funding available.
2. Gaps in funding opportunities need to be identified.
3. Indicators need to be part of a wider, informed strategy; short term funding streams are not conducive to good planning and do not allow the consideration of the delivery of wider reaching implications; we need to consider a longer term strategy in order to ensure security of funding.
4. It is considered that SAP does not reflect the new technologies and that it is out of date and a review or reconsideration is needed of the related scoring.

Thank you for taking the time to give us your feedback!
