How you would like your response to be handled

To help make this a transparent process we intend to publish on our website the responses we receive, as we receive them. Please let us know how you would like us to handle your response. If you are responding as an individual, we will not publish your contact details.

Are you happy for your response to be published on our website?

YES

If you are responding as an individual ...

□□□

Please tell us how you would like your response to be published.

Pick 1

Publish my full response, including my name

Please publish my response, but not my name

1. Is there anything not covered by the proposed indicators? (if yes, please explain)

No. Proposed indicators seem appropriate and allow additional context and explanations within the comment boxes.

2. Are there any indicators that you feel are not appropriate and, if so, why?

No

3. Is there any information we ask for that you feel does not need to be included or that we have been missed?

It would be useful to have further guidance on the level of detail required in comment boxes as there may be a need to provide quite complex evidence to justify particular cases.

4: Would you like to make any other comments or suggestions about our proposed indicators?

SFHA are in an ongoing dialogue with the Scottish Government about our members' wider concerns about meeting the targets and the associated costs. Given that the ESSH2 guidance is still in draft form, it would be useful to know whether the SHR's approach to monitoring ESSH2 compliance may change to reflect any further changes to the guidance. Further clarity on whether the Scottish Government's proposal to bring the formal 2025 review forward by 2 years will impact the SHR's approach would also be welcomed.

Thank you for taking the time to give us your feedback!
